10. The Herero Genocide
11. Genocide of the Native Americans
12. The Transatlantic Slave Trade
13. The Zaire Genocide

# "Never Again!"

The world keeps on failing "Never Again" not only because of politics but mainly because the general public is not aware of the harm a genocide can cause.

But also not knowing their ability to stop such thing or how they can use their power as a citizen to prevent such event from happening again anywhere in the world.

***Nobody should go through this kind of harm to understand what a Genocide is!***
